

1-15 Chloe Court
Bournemouth Road
London
SE15 4UN

4 September 2025

Dear residents,

We are writing to update you on the planned external wall/cladding remediation works for Chloe Court.

We have formally submitted an application to the Cladding Safety Scheme (CSS) to secure funding for necessary remediation works. This application was made on Friday 29 August. This is a key step in addressing identified building safety concerns.

Following the Fire Risk Appraisal of External Walls (FRAEW) conducted by MAF Associates, it has been concluded that the external wall system at Chloe Court presents a 'High' fire risk.

This means the current construction poses a significant fire safety concern and remedial works are required to mitigate the risk.

We can confirm that remediation works will commence once we receive a decision from the Building Safety Regulator (BSR) as per previous communications. These works will aim to address the identified fire safety issues and improve the overall safety of the building's external wall system.

More information can be found about the Cladding Safety Scheme:
